

Submitter: Nance Reynolds

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

To the House Judiciary Committee,

I lived in Eugene for years and witnessed the effects of the Thurston High School shooting as an RN in the local hospital. I am currently a therapist, and have had many experiences with clients who are afraid of violence in their homes with guns, and the repercussions of people with psychological imbalances who have access to firearms.

I attended meetings with the Moms Demand Action in Eugene, Oregon.

I support measure 114 and support the implementation as soon as possible.

Thank you,

Sincerely,

Nance Reynolds PhD, LCSW
