Legislators All,

My life has been impacted by gun violence.

I support the 2nd Amendment to the US Constitution, AND I support things like background checks, people with restraining orders against them not having legal access to firearms of any kind, age restrictions on who can purchase a gun (over 18), passing a gun safety course as a condition for purchase, etc. I may be a little TOO concerned! Yet, considering the current state of affairs, I think there is lots of room for the pendulum to swing back toward moderation when it comes to guns.

Let's pass this thing! thank you.
