

Submitter:

Michael Roth

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB3075

Please sign on and support this companion legislation to provide a method to smoothly enact the gun safety laws before you this session. Often times laws are supported and passed but turn out to have little impact because the laws were not thought through far enough to have a support mechanism that provides for seamless implementation. Please give these laws a mechanism to be implemented and make our society safer.
