

Submitter: Ethan Brown

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

This proposal is not fair because it takes away people's basic freedoms and rights. It makes it harder for good, law-abiding people to buy and own guns, which is something the Constitution says they are allowed to do. The new rules, like long waiting times, extra fees, and lots of paperwork, make it so that only people who can deal with all the hassle can get a gun. This is not fair to those who can't afford professional security details to follow them around all day and protect them at night. Instead of helping, these rules make it harder for regular people to stay safe.
