

Submitter: Ian Nelson

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

To the Oregon Legislature,

Measure 114 was proposed using faulty logic that gun violence will be reduced by adding costly and burdensome criteria for Oregon citizens to purchase or transfer firearms. Criminals will always be the ones to use firearms while disregarding these rules, thereby increasing the risk of injury or death to Oregon citizens whose ability to defend themselves was limited by these rules. This bill does the same as Measure 114. I urge a no vote on this bill.
