

Submitter: Michala Morris
On Behalf Of: Measure 114 to be apposed
Committee: House Committee On Judiciary
Measure, Appointment or Topic: HB3075

Our rights to have guns and protect our selves should not be taken away or even questioned! This is disgusting for such a small amount of people to chose this and it still be in question. This is America. We have the right to bare arms and protect our selves and our family. This should not be passed and our rights should not be questioned.
