

Submitter: Brad Lane

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

Second Amendment to the United States Constitution, ratified on December 15, 1791, protects the right of the people to keep and bear arms, stating that a well-regulated militia being necessary to the security of a free state, the right of the people to keep and bear arms shall not be infringed.

This is why I oppose this poorly written bill. Shall not be infringed is clearly written. 114 clearly is against my constitutional right and needs to be removed immediately.
