Happy Tuesday,

I write in opposition to HB3075. This bill only adds difficulty to law-abiding citizens. This bill in no ways stops or prevents any sort of criminal activity.

We all know the 'pandemic' already took a large toll on small businesses due to Kate Brown's policies and regulations. This bill is also a small business killer.

I think everyone should have the opportunity to arm themselves in Oregon. This law and others infringe our second amendment rights. If passed, I hope the Supreme Court oversees this law and quickly, declares it unconstitutional.

Shame on Oregon politicians for attempting to take away our rights.
