

Submitter: Daniel De Forest

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

Measure 114 and HB3075 are clearly a violation of our second amendment rights. Other states have passed similar legislation and they have been proven to be unconstitutional via the bruin and heller decision by our nations supreme court. This violates the federal definition and our states definition of the second amendment in our states Constitution and the federal Constitution . The house bill 3075 and measure 114 must not be passed I am an Oregon resident and I oppose both of these.
