Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

once again trying to violate our 2nd amendment rights is unconstitutional by making it virtually impossible for the average citizen to even purchase a firearm. and driving many small businesses out of business. This again does nothing to enhance safety and penalizes law abiding citizens. As someone who dedicated part of my life to defending our nation and constitution it saddens me to see these blatant attacks on our constitutional rights. Shame on those pushing this. Maj. LaVay W. Jeffries USAF retired.
