

Submitter: Lin Johnson

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

For the good of all Oregonians, especially the weak that live in underserved areas, please oppose this bill that would limit and at least delay my ability to exercise my constitutional right to purchase firearms to defend myself. Guns dont kill people by themselves, people kill people! Whats next, take away cars?

Be honest with yourself, and those who put you where you are, do things that will actually make a difference in our safety.

Thanks,

Concerned Mother and Oregonian
