

Submitter:

Alice Hutton

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB3075

I am a CHL owner, as well as a law-abiding citizen. HB3075 would only impede my rights as a United States Citizen, but at the same time changes nothing for those that continue to break the law and obtain firearms illegally or suffer from a mental health crisis. We have several issues that need to be addressed in this state but stripping law-abiding gun owners of their rights if this Bill passes is NOT the answer. We have background checks in place when/if firearms are purchased. Background checks if you get your concealed carry license. Yet so many crimes are committed with firearms that are either stolen or acquired illegally. Punish those that break the law, not those that follow it.
