The additions to 114 are preposterous.

There are no provisions for the training in place, no provisions to create the training.

The increase in cost by 130%+ is unwarranted.

The extended waiting periods will ONLY harm law-abiding citizens. This is ridiculous in that it actually endangers the people who need to be protected. What is the waiting time for a Police response in your area? In mine it's 10-15 minutes.

I firmly believe that 3075 will increase the danger to our citizens.
