

Submitter: Harriet Cooke

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

Creating a safe Oregon requires gun dealers to be inspected and have reasonable expectations for helping to curtail gun homicides and suicides. Responsible adults need to be allowed to have guns , but we need measures to help stem the violence from unchecked emotions plus immediate access of guns. I completely support this bill and all additional common sense bills promoted by Mom's Demand Action, and the Alliance for a Safe Oregon. We need legislative power to act now! Everything we can do we must do, because there will always be ways around our measures, but measures like HB3076 have been shown to significantly help decrease gun violence.
