On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

I fully support this bill. During the time I have lived in this small community of 2,500 people in North Lake County I can easily recall five different incidents where people were shot; three children accidentally shot, all of whom I knew personally, and two deputy sheriffs. Three of these five casualties died from their wounds.

Firearms have always been a tool of use in our family, but they are a very dangerous tool, and must be handled with great care and respect. I have witnessed careless handling too many times. I think quick implementation of Measure 114 will make us all safer.
