

Submitter:	Robin Ehrhardt
On Behalf Of:	self and spouse
Committee:	House Committee On Revenue
Measure, Appointment or Topic:	HB3755

This Bill would provide needed relief to seniors meeting the criteria that exist on limited incomes. My spouse and i have a total monthly income of \$1600. We have lived in our home for 28 yrs. We paid in for years for the school benefits of others with children for schools. It is our time to be supported by allowing us increased financial stability. Monetary savings exist as well for the government. As we age in our home, the fiscal support from Medicaid is not tapped. Property values increase so when/ if that day comes, the realization of revenues paid back from estates will far the costs now of making a property tax exemption. Do the math.

Please support this bill and help keep Oregonians free and solvent.

Thank you!

Robin Ehrhardt
