

Submitter: Robert Egnor  
On Behalf Of: Law Abiding Voter  
Committee: House Committee On Judiciary  
Measure, Appointment or Topic: HB3076

I am firmly in Opposition of this bill because it's unnecessary. The ATF already has lists of Licensed Gun Dealers. Anyone with an FFL already goes through rigorous background checks along with all their paperwork gone through with a fine tooth comb.

Adding more Licenses at the state level simply put undo burden on individuals that have already past licensing and permitting beyond others. This will do nothing but add more stress to an already very stressed and burdened background check system and add regulation where there is already to much.

The Second Amendment is an Inalienable right not one granted by any man, regulation or agency. A free society has the right to defend itself without government overreach.

Full stop on over regulation.

Vote NO on HB 3076
