Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB3755

I fully support this measure here in House District 15. It would make Oregon a destination for retirees and stimulate the economy. We think it's great that Oregon doesn't tax social security income and together with Trump's "no taxes on social security" at the federal level, it would entice others to move to Oregon despite its insane left wing deranged socialist cult.

If Democrats want to rebuild their brand because your approval ratings from three recent polls have you in the 20% range, this would help a lot. My guess is that because Democrats in Oregon power positions have wasted so much money over the years, that they will not go for this because they love taxes and hate the people. Thank you.
