HB3075

I am a long time democrat and I do not support this for many reasons. This is clearly against what the oregon constitution spells out, it gives improper decision making authority to police. Police should absolutely not be in charge of making decisions like this, it has been demonstrated time and again that this heavily skews against poor and non-white and can enable situations like in MN where people are trying to classify disliking trump as a mental illness to abuse those they don't like.

Nothing in this does actually does anything to reduce or prevent violence. We need to be addressing the root causes, which are expensive and time consuming, rather than wasting tax payer money on this boondoggle.
