

Submitter:	Robert Egnor
On Behalf Of:	Tax Payer and Voter
Committee:	House Committee On Revenue
Measure, Appointment or Topic:	HB3755

I fully support this Bill. Our elderly are typically very low income and have paid taxes for decades. Their medical expenses are higher than most especially prescription drugs. The tax on their property can really hurt individuals and couples with low income and without the ability to go and work at their age to help bring in added funds.

We need to help support our elderly, disabled and our veterans. This small tax break can make a big difference for them

Yes on HB 3755
