Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: SB163

I oppose SB163 for several reasons. Firstly, parents are already universal and need no further definition. A man and a woman create a child. A person or persons can adopt a child. A foster parent also has defined parental definitions. Anything beyond that is over-reach by legislators or CPS or judges trying to confuse the issue of parent/child relationships.

This is a bad bill and should die in committee.

Thank you,
