

Submitter: Ashley Dewar

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

On the behalf of all oregonians this is an unlawful ballot measure against the second amendment rights. Our second amendment rights states that our second amendment rights cannot be infringed in this ballot measure completely goes against our constitutional right. This will be sent to the federal government and to the supreme courts if you allow this measure to continue.

Having these types of measures being put in place in our state can be classified as treason because you are fully violating our constitutional rights to bear arms.

This measure will not stop the criminals from getting their hands on guns off the black market and they will continue to hurt and kill those around them no matter what type of measures you try to put in to stop it.

Maybe you should focus on proper law enforcement staffing and getting these criminals off the street instead of trying to infringe on Law obeying citizens.

It's time for our local government to stop being lazy and making these stupid measures that make no sense and that violate an infringe on our constitutional rights and actually do your jobs the way you are supposed to do them because this is not it.
