Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

I am writing in opposition to HB3076. This will do nothing to reduce crime. I find it difficult to understand how this is going to do anything other than be used further restrict law abiding citizens. Criminals with continue to be criminals. I am also extremely concerned that this is intended to invade my and my fellow citizens right to privacy.

Thank you for this time to express my concerns and opposition.
