Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

I am glad you want to reduce violence in our State.

I am mortified that this proposal will turn your honorable citizens into criminals for simply continuing as they were.

There are many of us who love our neighbors, who help rather than hurt. Turning us into criminals will NOT help solve the problem.

Please do work for two things:

- 1) Hold accountable the people who actually hurt others and;
- 2) Work to provide opportunity for community building through supporting non-profits, community groups and law enforcement.

Regards,
Charles P. Redon
