

Submitter: Rose Kaler

On Behalf Of:

Committee: House Committee On Revenue

Measure, Appointment or Topic: HB3755

I strongly support HB 3755, By the time a homeowner reaches retirement age, they have paid thousands into property taxes. This is a much needed respite to allow those hard working seniors to enjoy their homes and retirement years. Oregonians are over taxed and have little to show for it. (schools for an example, we pay some of the highest taxes per student in Oregon and our students are rated among the lowest in academic standards)
