

Submitter: Alicia Ibaraki

On Behalf Of:

Committee: House Committee On Early Childhood and Human Services

Measure, Appointment or Topic: HB3835

This bill does not protect our children, rather it rolls back important child abuse protections. If passed, this bill would functionally allow for an increase of restraints to be used on children, with little oversight or the ability to investigate allegations of abuse or neglect. I don't disagree that there is a problem that needs to be solved, but building capacity and training providers is the approach we need to take rather than loosening regulations.
