Measure, Appointment or Topic: HB3075

Thank you to our representatives for allowing us to submit our testimony and thank you for your efforts to help improve and protect our community.

I am writing to voice my opposition to HB 3075. Measure 114 was already called out for its disproportionate effect on marginalized communities and HB 3075 seeks to double down on the same issues. By nearly doubling the fee associated with the license, the bill confirms that it's not about who's qualified to defend themselves; it's about who can afford it.

Every American should be able to exercise their rights without having to pay a toll.
