

Submitter: Daniel Strawn

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

I am writing this in complete opposition to HB3075. My first point of opposition is the financial impact of this bill, how is this bill going to be implemented without significant financial burden on us the tax payers? Even with the outrageous permit fees to exercise our constitutional right (2nd amendment) this will not be enough to implement and enforce this bill! My second point of opposition is the fact it is unconstitutional, then it will be asking our law officers to break their oaths by not enforcing the constitution of the United States of America! My third point of opposition is the fact it does nothing for gun safety but rather put law abiding citizens at risk by limiting their ability to protect themselves. The fact that criminals already ignore the gun laws we already have in place. My fourth point of opposition is the fact that this bill can only be challenged in Marion County, I live in far Eastern Oregon, this means this bill segregates us that are not in or near Marion County, do we not have a say in our State because we do not live in the "population hubs" of Oregon?

I could continue on and on with reasons of opposition to this bill but it will just become redundant. I whole heartedly believe instead of violating our constitutional rights with a bill that we do not even know what the financial impact will be that we work on the root cause of said gun violence, Mental health issues, criminal activity and ECT...

Sincerely,  
Daniel L. Strawn
