

Submitter: Isaac De Santiago Mejia
On Behalf Of:
Committee: House Committee On Judiciary
Measure, Appointment or Topic: HB3075

This legislature is unconstitutional and should not have even gotten this far. HB 3075 Converts a right into a privilege/license is unconstitutional. See *Murdock v. Pennsylvania* 319 US 105.

You are giving law enforcement the sole power to decide who can defend themselves. This leaves many disadvantaged groups that have been targeted by law enforcement (POC and LGBTQ) to fear that they will be denied the right of self-protection given to all citizens of the US by the 2nd amendment.

Along with a 10 round cap you are not making anyone safe but the criminals who already do not follow the law.

Furthermore, keeping records of transactions is also illegal. There have been many instances of the ATF and other agencies doing this covertly and getting reprimanded when discovered. Yet you are trying to do it under the guise of law.

This will only end with taxpayers paying for lawsuit after lawsuit. Instead, why not create a bill to bolster Law Enforcement. Provide better training, increase internal affairs funding, hire more officers, and establish a better mental healthcare for them.

This House bill is a mistake, and I hope you will see this too.
