

Submitter:

Brian Piki

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB3075

I firmly oppose any regulation of a constitutional right. Especially one that infers someone is guilty of a violation unless they can prove otherwise, contrary to the basic fundamentals of our laws. Laws passed via states of emergency especially when none exists at the time are all to remove the democratic process from the people. This government has repeatedly shown a willingness to do just that. Passing laws to control those that don't follow laws at the expense of those that do is stupidity, to say the least! No wonder greater Idaho is gathering momentum. I can only hope others gather together and challenge the current tyranny known as Oregon's government.
Thank you, Brian Piki
