HB3755

I am a 65 year old senior citizen who supports this bill 100%. I have a small pension and Social Security benefits. My property tax increase each year is more than my COLA, which means I am getting further and further behind. Not having a huge property tax payment each year would offset my situation so that I can keep up with the increased cost of living and just break even. I have countless friends and family in similar situations.

I implore you to pass this bill for retired citizens of this state who have worked so hard their whole lives to be able to finally retire.

Thank you for this consideration!
