Measure, Appointment or Topic: HB3075

Measure 114 was a step to far. Yes, it was voted in by the public, but I also believe the public was deceived by the messaging related to the measure. Take the vote again and I believe the measure 114 would fail. Measure was a step to far, HB 3075 would only make things worse. Let the people of Oregon vote on this legislation, but no, because you know it would be defeated.
