

Submitter: Elisabeth switzer

On Behalf Of:

Committee: House Committee On Revenue

Measure, Appointment or Topic: HB3755

i support HB3755. My mother in law recently lost her spouse and is barely able to make ends meet on social security. We have her signed up for low income programs and she is trying to set aside funds for her property taxes later this year. She wants to stay on her home and is healthy enough to do so. This measure would substantially help her and many other seniors I know.
