

Submitter: Hersey McBroom

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

I strongly oppose HB 3076. Those whom have an F.F.L already go through extensive background checks, screenings, inspections and they're facilities have to meet regulation standards. To begin with this is a waste of money to study this. We should spend the money on suicide prevention, mental wellness, anti drug, and addiction programs, improving our schools e.t.c the list goes on. I'm thinking maybe the state believes they can either make money in the long run or drive gun dealers out of business and achieve they're gun control/ people control goals that way. This is an un needed and ridiculous waste of time and resources. Whomever came up with this bill and anyone involved in promoting it is out of touch with the true needs of our state. Please vote no on this bill and focus efforts and resources on something truly important. Between measure 114, H.B 3075 and H.B 3076 I feel this is just another backdoor way to work at eroding and controlling people's livelihoods.

Thank you.
