Measure, Appointment or Topic:	HB3755

I'am 100% behind this bill as one of thousands of Oregon senior on a fixed income, this exemption would be a great financial relieve, seeing how senate bill 573 would discontinue the kicker program for taxpayers if passed, and not to mention HB3419 that will if passed put a tax on your water well in amount of \$1500.- \$5000 for each water source on the property, Oregon is one of the high taxed state in the union next to our neighbros to the south
