

Submitter: Michael Rose
On Behalf Of: All legal gun owners.
Committee: House Committee On Judiciary
Measure, Appointment or Topic: HB3075

This a blatant violation of second amendment rights to all legal gun owners.

It will not stop gun violence and it will not impact criminals.

Gun legislation has done nothing in the past to mitigate gun violence. Our fellow states to the east have proven this. Illinois more specifically Chicago has a high rate of gun violence and some of the strictest gun laws. Same with Michigan more specifically Detroit, again has some of the highest gun violence rates and strictest gun laws.

Laws do not work to keep guns out of criminals hands, because criminals do not care about laws.

Quit punishing the law abiding citizens of this state.
