

Submitter: Andy Munson

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

I held an FFL for a decade, and understood licensing and the burden of keeping records for the ATF. It was so onerous that it played a part in us giving up our firearms coating business.

There is concern this could build a defacto state firearms registry. At a time when citizens are concerned of federal overreach in every facet of our life and local government, please don't give them more tools to use against us.
