

No on HB3166

Quit Beating This Dead Horse!

The voters have already said no to ranked voting. The only improvement needed is to allow Independent voters to participate in the primary. They could have their own ballot in the primary. That way the Independent candidate with the most votes would proceed to the general election. Oregon has so many other serious problems that deserve your attention. This is low priority compared with crime, drugs, and the homeless. Start spending your time and our money wisely!
