Measure, Appointment or Topic: HB3076

Dear Judiciary Committee members,

I am writing in strong opposition to HB 3076, even though at the time of writing this testimony. There is only a placeholder bill in its place. I feel that this isn't in the good spirit of a constitutional republic. The people of Oregon deserve full transparency and should be able to view it in its entirety. I encourage you to not pass this bill out of committee, no matter what the language is. Thank you!
