HB3075

Hello, I strongly oppose thos bill. This will do absolutely nothing to curb gun violence. It will however put undue financial hardship on law abiding citizens. The black market cares not what laws you make. The criminals will always find a way. The United States constitution states " the right to bear arms shall not be infringed" however that is exactly what this state is trying to do. The focus should be on teaching our youth about proper firearms traning and use. I moved to this beautiful state as a teen from Wyoming. In grade school, we took hunters safety courses. We learned about gun safety and proper handling. In my opinion, this state is going in the wrong direction. If we wanted to live in California, then we would move there. Please stop following California's lead. California is a laughing stock of the US, and Oregon will be soon behind at this rate. Please bring common sense back to Oregon, and eliminate the unrealistic bills like this one.
