

Submitter: Kevin Walsh

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

I am a retired Family Medicine physician who practiced in rural Arizona and central Washington for 39 years. The experience of failing to resuscitate patients who died of gunshot wounds will never leave me. The right to bear arms in a militia is guaranteed to all citizens. Equally, parents and grandparents should have the right to expect their children will come home safely from school and not be gunned down in their classroom. We need to protect ourselves from gun violence. This bill will help build an infrastructure to do that. Please support this bill.
