Measure, Appointment or Topic: HB3075

When elected officials ignore or attempt to circumvent the rule of law it leads to tyranny and a police state.

All of country sees that happening now with our current federal executive branch. It is extremely hypocritical of our state legislators to complain about the current federal administrations lack of respect for our constitution and governmental checks and balances, while evidencing the same disregard for our federal and state constitution as seen in the provisions of HB 3075.

I strongly oppose any efforts of the state in HB 3075 to limit my ability to ensure the safety of my family, properly, and rights by disregarding the tenants of our own state constitution.

When our state lawmakers can criticize federal overreach as an attack on our laws, and then try the same themselves, it appears that the real issue is more of jealousy of perceived power rather than of respect for the laws that govern this union.

My advice - Drop HB 3075 and any attempt to infringing on your constituent's lawfully and constitutional enumerated rights. Instead I would encourage the state and federal congresses to impeach and remove the current dangerous top executive.

Whether my pistol can hold 7 or 15 rounds is not an issue of any great priority. Please focus your attention on the potential for harm and tyranny that is developing in an out of control federal government. Work to preserve the rule of law and the strength of state rights, which can be done by respecting our state's constitution and laws.

Respetfully,
Michael Quiner
