

Submitter: Jennifer Winsted  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure, Appointment or Topic: HB3076

To Whom It May Concern,

I am writing to express my strong opposition to Oregon HB3076 due to the lack of transparency in its current process. As of now, this bill has not been made available to the public for review or comment. Without access to the text of the bill, citizens, organizations, and advocacy groups are left in the dark regarding its contents and potential impact.

Public participation and transparency are critical to the democratic process, and without the opportunity to read, analyze, and understand the bill before it moves forward, we are being denied a fundamental right to engage in the legislative process. I urge the committee to ensure that the full text of HB3076 is made available to the public immediately, so that meaningful input can be provided by those who will be affected by its provisions.

Transparency and accountability should be the cornerstone of all legislative actions, and I strongly believe that this bill should not be advanced until it is made fully accessible for public review.

Sincerely,  
Jennifer Winsted
