

Submitter: Michael Edera

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

I am a gun owner and a Democrat. I oppose HB3075 because there is no existing infrastructure to support implementation of the Bill's multiple requirements. There have been no additional resources allocated to fund the permitting work load that OSP will be faced with. It will greatly increase the political polarization around firearms that prevents reasonable compromise.
