Committee: House Committee On Judiciary
Measure, Appointment or Topic: HB3076

Hello,

I doubt very many, if any of these at all are going to be read, especially if we are opposed. I don't have too much to say on the matter. You know as well as I do this is simply going to stop and slow the flow of legal guns to American citizens. There's nothing else to be said, no conversation to be had. There's no chart, graph, or study, that shows disarming non criminal Americans will help slow or stop the issue of gun violence. This is so blatantly apparent in countries like England, where people simply can't defend themselves, including police officers on duty. The numbers don't lie. Now, I ask myself why my fellow American citizens who are fully aware of the constitution of the country, would want to disarm me. I have no criminal record to speak of. Do you genuinely believe criminals are going to be slowed at all by this? I'd like to ask how. Because there's no system in place for me to take this new course that's being demanded upon me by people I don't know who have no intention to take the course themselves, regardless of reason. This is a blatant and disgusting misappropriation of a vote, and it's an attack on my rights as a human being living in the sovereign country of the UNITED STATES. all that being said, I will not comply. And I will fight tooth and nail, because this is not my government, anymore. You've overstepped the bounds of the constitution of the United States, and inside the constitution it grants me the right to fight foreign and domestic threats. Congratulations on making the state of Oregon an enemy of the people, and soon to be the federal government. The state police aren't on your side, the local police aren't on your side, and the Feds aren't on your side. This might seem like a victory to you, but it's only the beginning of the end for progressive liberal terrorist groups that have infiltrated the state government and started dismantling the constitutional system we've fought to keep in place. Respectfully, I do not recognize this bill, and I urge every single piece of garbage in Oregon government, from the people who voted and funded this, to the judges that helped it get through recently, to get fucked, and use my email as an example for the contempt and hatred you've helped breed and perpetuate between the people who live here and the radicalized terrorist liberal government trying to shit down my throat.

With zero respect,
Dakota Kittleson.
