Measure, Appointment or Topic: HB3075

The affirmative defence for magazine possession is unconstitutional and impossible to prove. Magazines do not bear serial numbers making proving date of ownership, and thus, grandfathering impossible. It will criminalize law abiding citizens and open the door to firearm confiscation. It will also draw plenty more litigation in the courts due to this affirmative defence costing tax payers an untold amount. Measure 114 is a badly written bill, 3075 has not done enough to fix the bad language.
