Measure, Appointment or Topic: SB722

OPPOSE! This is yet another way to drive up housing costs. Since when is air conditioning "essential?" There doesn't seem to be an end to the ways in which you can penalize private business. I am not in the construction business and never have been, so I don't have a dog in the fight except my desire to protect private business and thereby bolster the middle class. I own a home where I have lived for nearly 40 years without AC. This new proposal seems out of line and completely unnecessary. Instead, why don't you focus on cutting our taxes and reducing regulations. Maybe then we can afford to stay in Oregon.

Thanks
