Committee: House Committee On Judiciary  
Measure, Appointment or Topic: HB3075

It is important now more than ever that the left at large, but especially minority groups such as the LGBTQIA+, (particularly trans people) BIPOC among others have the ability to protect themselves from a diverse set of existential threats. As an important component of personal defense, it is important that our right to bear arms is not infringed upon, and this bill as well as measure 114 are clear and unconstitutional infringements.
