

Submitter:

Sara Bortz

On Behalf Of:

Committee:

House Committee On Education

Measure, Appointment or Topic:

HB3007

I am in support of HB 3007. Students with a concussion, all ages, all reasons, need supports to be successful upon their return to school. Hospitals also need to communicate to schools (both in state and out - regardless of tx hospital and school are located) that students have experienced a concussion/have a TBI. Please pass this bill into law.
