HB3166

This should not even be on the books again, wasting officials time. It was voted down by the people. The people have spoken on this subject! There is no state that rank choice voting was put into place that has benefited from it. Learn from their mistakes and stop trying to regurgitate these bills that get voted down! Is this no longer a country that "the people" speak and are heard? Are we becoming a country of tyrannical rule that when a measure is voted down, the "government" just puts it in place anyway? Please, vote no on forcing this nightmare of rank choice voting down our throats.
